

Digital Tattoo

Workshops

About Us

Leigh has been delivering the Digital Tattoo program for over 15 years. This workshop explores the relationship Young People have to technology use and how they are interacting in their online worlds.

Leigh has delivered 100s of workshops for parents and carers, students and teachers as well as the community sector.

Sessions are interactive and strength based, age and developmental level appropriate, 90 mins in duration and delivered through a respectful relationships lens.

The workshops are fee for service, please give us a call to find out costs for your school or community.

Sessions Available for:

Students

Parent / Carers

School Staff PD

Community

**OVER 60 WORKSHOPS
DELIVERED IN 2024**

The Digital Tattoo workshops cover content that is age appropriate from the list below:

Consent and ethics, being able to sit with 'no', respectful relationships, cultural humiliation, social media, influencers, group chats, boundary setting, gambling and gaming, pornography and sexting.

******The presenter will work with the school to identify issues that are specific to the school and ensure the content covers topics relevant to the cohort .

What they say

"Fantastic ,engaging and so many key takeaways. Very valuable." *Secondary Parent 2023*

"Humour with hard message. Knowledge as a parent and an educator, brilliant presentation." *Primary Parent 2023*

"My Daughter came home saying today's session of Digital Tattoo was the best thing she's done at school that's not school stuff. Thank you, can't wait to sit with her and talk about what she has learnt." *Parent 2023*

"The benefit of BATForce's parent education face to face sessions are invaluable for all school communities. Schools cannot do this important educational work with families without the direct support of expert practitioners who have the theory, practice and narrative skills to engage all parents across a school community. Our recent evening with Leigh Barlett was highly informative and practical. Every parent was fully engaged in an interactive session and left feeling empowered with practical strategies to apply to support their children's social and emotional connections in the online world." *Principal 2023*
